

PUBLIC NOTICE

The Federal Substance Abuse and Mental Health Services Administration provides funding to states and territories for the development of a plan of community mental health services for adults with severe mental illness (SMI) and children and adolescents with serious emotional disturbance (SED), and for programs of prevention and treatment of persons with substance use disorders (SUD). The Mental Health and Anti-Addiction Services Administration is the Single State Agency (SSI) responsible for developing and implementing the plan for the use of funds delegated for these purposes in Puerto Rico.

The draft of the Combined Mental Health and Substance Abuse Prevention and Treatment Block Grant for 2021-2022 is available for public review, from August 31, 2020, to gather comments and recommendations from the general public. In order to participate in the revision of said application, you may communicate with the Office of Federal Funds and Planning of the MHAASA by telephone at (787) 764-2888 or by email at UCAT@assmca.pr.gov.
